MATHEMATICS OF THE USSR – SBORNIK

МАТЕМАТИЧЕСКИЙ СБОРНИК

Tom 92 (134) Nos. 1–4, 1973

Volume 21, Nos. 1–4 September-December, 1973 Pages 1–639

INDEX OF AUTHORS

Page

Aminov, Ju. A. *The exterior diameter of an immersed Riemannian manifold* 449

Bugrov, Ja. S. *Imbedding theorems for classes of functions with mixed norm* ... 607

Čirka, E. M. *The theorems of Lindelöf and Fatou in* C^n 619

Èĭdel'kind, D. I. *On Magnus groups* 207

Èl'kin, L. N. See Gluskin, L. M. and Èl'kin, L. N.

Evgrafov, M. A. and Postnikov, M. M. *More on the asymptotic behavior of Green functions of parabolic equations with constant coefficients* 167

Frolov, N. N. *On the Dirichlet problem for an elliptic operator in a cylindrical domain of Hilbert space* 423

Fursikov, A. V. See Višik, M. I. and Fursikov, A. V.

Gluskin, L. M. and Èl'kin, L. N. *Positional operatives with invertible elements* 412

Gončar, A. A. *On the convergence of Padé approximants* 155

Kacnel'son, V. È. *Equivalent norms in spaces of entire functions* 33

Kiĭ, K. I. *A local Torelli theorem for cyclic coverings of* P^n *with positive canonical class* 145

Komeč, A. I. *Elliptic boundary value problems on manifolds with a piecewise smooth boundary* 91

Koževnikov, A. N. *Spectral problems for pseudodifferential systems elliptic in the Douglis-Nirenberg sense, and their applications* 63

Manin, Ju. I. *Periods of parabolic forms and p-adic Hecke series* 371

Maslennikova, V. N. *The rate of decrease for large time of the solution of a Sobolev system with viscosity* 584

Matveev, S. V. *Special spines of piecewise linear manifolds* 279

Mirjuk, V. G. *Homology and cohomology of sets and their neighborhoods* 303

Nemirovskiĭ, A. S. and Semenov, S. M. *On polynomial approximation of functions on Hilbert space* 255

Novodvorskiĭ, M. E. and Pjateckiĭ-Šapiro, I. I. *On zeta-functions of infinite-dimensional representations* 499

Osipov, V. F. *Some questions of spectral synthesis on spheres* 317

Osipova, V. A. *An algorithm for recognizing the solvability of equations in one unknown over semigroups with overlap of less than 1/3 in the defining words* 1

Oskolkov, V. A. *On estimates for Gončarov polynomials* 57

Pjateckiĭ-Šapiro, I. I. See Novodvorskiĭ, M. E. and Pjateckiĭ-Šapiro, I. I.

Poleckiĭ, E. A. *On the removal of singularities of quasiconformal mappings* ... 240

Postnikov, M. M. See Evgrafov, M. A. and Postnikov, M. M.

Rabinovič, V. S. *A priori estimates and the Fredholm property for a class of pseudodifferential operators* 191

Roĭz, E. N. *On the compressive radical of semigroups* 523

Sačkov, V. N. *Random partitions of sets with marked subsets* 485

Saliĭ, V. N. *Boolean-valued algebras* 544

Sarmanov, O. V. See Zaharov, V. K. and Sarmanov, O. V.

Ščepin, E. V. *Axiomatics of the dimension of metric spaces* 137

Semenov, S. M. See Nemirovskiĭ, A. S. and Semenov, S. M.

Simonenko, I. B. *Higher approximations of the averaging method for abstract parabolic equations* 535

Skornjakov, L. A. *More on quasi-Frobenius rings* 511

Stavskaja, O. N. *Gibbs invariant measures for Markov chains on finite lattices with local interaction* 395

Šubin, M. A. See Tulovskiĭ, V. N. and Šubin, M. A.

Tarakanov, V. E. *Maximum height of arbitrary classes of* (0, 1)*-matrices and some of its applications* 467

Tkačenko, V. A. *On the uniqueness of an expansion in generalized eigenfunctions of a differential operator* 455

Tulovskiĭ, V. N. and Šubin, M. A. *On the asymptotic distribution of eigenvalues of pseudodifferential operators in* R^n 565

Vaĭnberg, B. R. *On exterior elliptic problems polynomially depending on a spectral parameter, and the asymptotic behavior for large time of solutions of nonstationary problems* 221

Višik, E. Ja. *Lie groups which act transitively on simply-connected compact manifolds* 558

Višik, M. I. and Fursikov, A. V. *Analytic first integrals of nonlinear parabolic equations and their applications* 339

Zaharov, V. K. and Sarmanov, O. V. *Combinatorial methods for investigating the distribution of the trajectory amplitude of a random walk.* II 439

Zinde, V. M. *A semi-invariant integral with values in a group* 292
